# 4Q22 results: beat in earnings from strong qoq recovery

- FY22 net profit of Rp1.1tr came slightly above at 105/102% of ours/consensus estimates.
- 4Q22 sales/net profit grew 25/40% qoq, exceeding company's guidance of +20% qoq for sales/net profit growth.
- Reiterate our BUY call for SIDO with unchanged TP of Rp900

#### FY22 results: a slight beat amidst strong qoq jump in revenue

SIDO's FY22 net profit reached Rp1.1tr (-12.4% yoy), above ours/consensus FY22 estimate at 106/105% achievement. FY22 sales of Rp3.9tr was slightly above at 105/102% of ours/consensus FY22 estimate, with a lower blended gross margin of 55.9% in FY22 vs. 56.9% in FY21 (higher input costs in F&B segment). Additionally, we note that SIDO's total opex/sales ratio climbed to 20.4% in FY22 from 18.1% in FY21, the increase of which is attributed by salaries in G&A of +18.6% yoy and higher advertising and promotion/sales ratio of +46bps yoy.

#### 4Q22 results: strong qoq rebound & almost matched 4Q21's high base

In 4Q22, SIDO's sales/net profit grew by 0.6/-2.8% yoy and 25.0/39.8% qoq, which was above company's guidance of +20% qoq for both sales/net profit growth. Worth mentioning that herbal segment posted a robust sales growth of +46.3% qoq and even surpassed 4Q21's Covid-19 high base period by 5.6%. The herbal segment also booked GPM of 70.2%, up from 67.1/66.6% in 4Q21/3Q22 - this the highest ever recorded by SIDO on a quarterly basis. On the other hand, 4Q22 food & beverage's sales dropped by -15.3/-17.3% yoy/qoq, albeit with gross margin improvement of +360bps qoq to 30.6% from declining raw material cost.

#### **Brighter FY23 outlook**

Following 4Q22 result announcement, management shared their FY23 guidance of >10% growth for sales and net profit. Sales growth would be driven by a combination of new product launch (Alang Sari up to 2% of sales); Higher export contribution of 6-7% from FY22's 5-6%, from 4Q22's low base in Nigeria's export (election period) and exploration of essential oil new export markets in USA and Asia; and ASP adjustment for herbal done in Dec22 (>5%). With FY22 result, we fine tune our FY23F forecast with sales/net profit of Rp4.3/1.2tr (+3.8/1.6% from previously).

#### Reiterate our BUY call with unchanged TP of Rp900

We reiterate our BUY call for SIDO following the FY22 result beat, with unchanged TP of Rp900 pegged to 22x FY23F P/E (+1SD 5-year mean).
